Part III DETAILED ACTION

1. Claims 1, 6-14 and 35-49 are pending.
2. Claims 36-38 stand withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected inventions, for reasons set forth in Paper No 16.
3. Applicant Petition submitted 9-2-03 was granted. The Finality of Office Action Paper No. 19, was removed. Applicant's afterfinal received 5-28-03 has been entered and fully considered as if it was a response to a Non-Final rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. § 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103[®] and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1, 6-14, 35 and 39-49 stand rejected under 35 U.S.C. § 103 as being unpatentable over U.S. Patent 4,740,371 (A), in view of U.S. Patent 5,789,208, both of record for reasons set forth in Paper No. 19.

Applicant's arguments filed 5-28-03 have been fully considered

but are not found persuasive.

Applicant argues that the '371 patent does not teach a pharmaceutical composition comprising recombinant polyclonal antibodies free of allergen even in combination with the teachings of the '208 patent. Furthermore they argue that at no point does the '371 patent teach or suggest administration of the polyclonal antibodies without allergen to a patient.

However, there is no requirement for a product claim to meet a method step limitation. The prior art references only need to suggest creating a pharmaceutical composition comprising recombinant polyclonal antibodies without allergens. The additional limitation applicant is arguing, that the '371 patent doesn't teach administration of the polyclonal antibodies without allergen is not required. The '371 patent teaches making and isolating polyclonal antibodies (see column 8, in particular) and THEN adding the allergen for administration to a patient. One of skill in the art would have been motivated to make the polyclonal antibodies taught by the '371 patent, recombinantly for reasons given by the '208 patent. AFTER the recombinant polyclonal antibodies were made and in a pharmaceutical composition, thereby meeting the limitations of the claim, the allergen could be added according to the teachings of the '271 patent.

4. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 is rejected as being dependent upon a cancelled claim. Correction is required.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
